

REBECCA ROGERS JURY IN DEADLOCK

Six Convicts Make Escape From Ramsey State Prison Farm

HOME TOWN STUFF

Business was good in Wichita Falls yesterday—good for the owners of the baseball franchise, because some eight or ten thousand people paid an average of perhaps \$1.25 or \$1.50 each to see Dallas beat Wichita Falls. That was not part of the contract, the part about Dallas winning, but it happened that way. Both teams put up a fine exhibition of baseball but it wasn't Wichita's day to win.

One man remarked as the crowd filed out of the park that the better brand of pitching and hitting put out by the home team as reasons to support his contention. The position of the writer of this column is that he was wrong. It would have been a shame to give the game to Wichita after Dallas made more runs and the game goes to the one who is entitled to it. Getting runs registered at the home plate is the game in baseball. Touchdowns count in football. It does no good to get a runner to third base in baseball or carry the pigskin to the one-yard line in football unless a score is made.

The winner is always entitled to the decision when he gets it according to the rules of the game. Lots of people are that way in business and politics and every walk of life. They excuse their own failures and try to discount the successes of others by saying the winner wasn't entitled to the victory. If he gets it that is what counts, as long as he gets it according to the rules.

From Springfield, Mo., comes a picture post card from R. D. L. Kilgough, who writes that he went up there on business. He adds that Springfield is a nice place and that "the boys have made some apple cider." He didn't give the names of the boys, however.

Superintendent W. T. Lofland writes the following letter to the writer of this column: "We are having the opening of the new colored school at nine a. m. Friday, September 20th, to which you are very cordially invited. A short program will be rendered by the colored people and by a few whites. It would be quite an encouragement to these colored people to have you present and to have any friend you may care to take along."

For the first time in the history of Vernon the negro school children will have a comfortable and substantial school building. It is built of brick and will have conveniences and comforts the same as other school buildings. We haven't been fair in the past to the negro schools. Of course, our facilities for white school children have been painfully inadequate. With the erection of new buildings in the past year, however, the condition has been relieved. One of the best ways to deal with the so-called race problem is to provide the blacks with educational facilities. It is cheaper to maintain schools and try to train the negroes as citizens than it is to combat crime and disease that are the result of ignorance.

This will be enough for today. Complaint has been made recently that this column has been slopping over into the one west of it. The news editor doesn't like this.

RAINS QUENCH FOREST FIRES

DOWNSPOURS THEMSELVES
CAUSE CONSIDERABLE
LOSS IN BIG AREA

Los Angeles, Sept. 19.—(A-P)—Rain and storms which quenched four major fires, including the disastrous \$3,500,000 Ventura County conflagration had washed out railroad tracks and stalled passenger trains today. Efforts of fire fighters to quell the blaze which blackened 25,000 acres of Ventura County watershed, destroyed 126 oil derricks, five school houses and scores of homes, were successful when the storm wrapped a heavy blanket of moisture over the countryside. A large section of the Ventura triangle tract, bounded by the cities of Santa Paula, Ventura and Ojai, became a sodden mass of wet ash and steaming embers. Of 2,500 men at one time mustered to battle the flames, 200 remained to guard the smoldering remnants. Two hundred and fifty persons, chiefly oil workers and their families were homeless.

Three other brush and range fires, which had assumed major proportions, one in San Diego County and two in Riverside County, were stamped out by rain. Four trains were marooned temporarily by washouts on the Southern Pacific Railway line between Nitland and Mecca in Imperial Valley. At Jacumba in the San Diego Mountains, a San Diego and Arizona railroad train was stalled Tuesday night in the beginning of the general storm which forced Russell Hall, Pickwick Latin-American Airways pilot, to land, wrecking his plane and fatally injuring himself.

FORD IS NOT INTERESTED IN MUSCLE SHOALS

Washington, Sept. 19.—(A-P)—Henry Ford is not interested in again bidding for the gigantic Muscle Shoals, Alabama, power project and has so advised Senator Hoffman, Democrat, Alabama, who recently wrote the Detroit manufacturer requesting that he do so.

In reply to the Alabama Senator, E. G. Leibold, general secretary to Henry Ford, wrote "we have no plans at this time whereby the power at Muscle Shoals could be utilized." The letter of Mr. Leibold follows: "In reply the writer has been instructed to advise you that we have no plans at this time whereby the power at Muscle Shoals could be utilized and that it would be beyond the question for Mr. Ford to again make an offer."

"He has also suggested that in his opinion other interests are in a better position to develop and utilize the power and it might be more practical to solicit an offer from them."

WIFE SLAYER'S TRIAL DELAYED

JUDGE GIVES NO REASON
FOR POSTPONEMENT OF
PEACOCK HEARING

White Plains, N. Y., Sept. 19.—(A-P)—With testimony of a dozen prosecution witnesses in the record, the trial of Earl Francis Peacock for the murder of his wife, Dorothy, stood adjourned today. No reason was given by the court for the 24-hour interruption in proceedings. At the end of yesterday's session, Captain Michael Silverstein, of the Mount Vernon, N. Y., police, was on the stand telling how the 21-year-old radio technician had confessed the slaying to him after inquiring about the law on justifiable homicide. Dr. Amos Squires, medical examiner of Westchester County, and Dr. Thomas A. Gonzales, deputy medical examiner of New York City, testified Mrs. Peacock died of manual strangulation.

District Attorney Frank A. Coyne brought out in the testimony of the doctors that the pressure of the fingers of the assailant would have to be maintained upon the throat of the victim for three to five minutes to cause death, long enough to establish the fact of a determination to kill.

Under cross-examination Dr. Gonzales testified death might occur in a much briefer period if the victim had been struck on the head with a club but as Peacock said he struck his wife, or if she had struck her head against a piano leg when knocked down. The doctor also said suffocation by hand held over the mouth and nostrils could cause death.

The message, it was said, advised him not to say anything for the talkies.

BALLOON CREW SAVED BY BOAT

Toledo, Ohio, Sept. 19.—(A-P)—Four persons sinking in a faulty balloon to a landing in Lake Erie were rescued 18 miles out late yesterday by the crew of the yacht Helene, who made fast a cable dropped from the basket and towed the bag to shore. Those aboard the balloon were Dr. C. Legalle, vice president of the Detroit Balloon Club, and three passengers, George Ingram, president of the Ingram Steel Company; R. K. Lee of the Chrysler Corporation, and W. J. Habermass, of the Goodrich Tire & Rubber Company. The yacht was in command of Captain L. B. Lockwood.

Legalle took his passengers on their first balloon cruise at noon yesterday. The bag floated south to Toledo, Mich., and then was carried over the lake by a change of wind. Shortly afterward Legalle noticed in alarm that he was sinking, and for an hour ballast was thrown overboard without effect. When the balloon was but 50 feet from the water, Lockwood saw its plight and cruised beneath. A cable dropped to the deck was made fast and the bag was towed to the Toledo Yacht Club harbor. It was pulled to earth without injury.

FARMER STOPS TREASURE HUNTERS WITH SHOTGUN

Treasure hunts may be all right but when a farmer sees two men digging up his pasture by the light of the moon at midnight he is justified in getting excited, members of the local Sheriff's department agreed this morning. Two men answered the call and found a farmer holding two men at the point of a shotgun pending the arrival of the officers.

BORGER DEATH SUSPECT IS REPORTED LOCATED

Borger, Texas, Sept. 19.—(A-P)—Accusation of the young widow of District Attorney John A. Holmes, slain from ambush that local officers did not aid him in his campaign against criminals was followed today by Sheriff Joe Qwnbey's statement that he had "located" a suspect but would make no arrest until more evidence had been obtained.

After Texas Rangers had asserted they had affidavits in their possession concerning an alleged plot between city and county officers, Mrs. Holmes declared to newspapermen that only one man, whom she did not name, had made any effort to aid her husband in fighting crime here.

"The rest of them," she said, "were afraid. When there is no one to help, you have to play a lone hand. Mr. Holmes never had any fear. He was all I had, and now they've taken him."

The Rangers in discussing the affidavits declared they knew the motive for Holmes' slaying and intimated they expected to make an arrest soon. The widow's statement, two days after the prosecutor had been slain by an assassin who skulked near the garage door at the victim's home that she believed she knew who killed him led Ranger Captain Frank Hamer to say he expected to effect an arrest.

The state officers' intimations were resented publicly by two deputies sheriff—Jim Crane and Cal Baird—but each declared he would co-operate in seeking the murderer. Crane and Baird, they said, deplored the "blanket" nature of the assertions.

Chief of Police J. W. Crabtree announced he would be \$1,000 that when "the right party is arrested" the city and county officers will arrest him.

Clem Calhoun, District Attorney of the 104th District, was expected here today as a special state attorney sent by Governor Moody to aid the rangers.

"Calhoun is one of the best prosecutors in Texas, cannot be intimidated and knows how to get the facts," the Governor said. "The six Texas rangers at Borger need an experienced man to assist them in the case, and I hope Mr. Calhoun will be able to stay with them until this matter has been cleared up."

District Judge E. J. Pickens planned a conference with the new attorney.

STEERS ARE VICTORIOUS IN FIRST CONTEST OF SERIES

CONNALLY AND PAYNE LIKELY CHOICES FOR TODAY'S HILL ASSIGNMENTS IN SECOND TILT

Wichita Falls, Sept. 19.—(P)—Victorious in the initial skirmish and their pitching staff intact, Milt Stock's Dallas Steers were in the driver's seat as they prepared to tangle with Jim Galloway's slugging Spudders in the second game of the Texas League play-off here today.

As Victor Fraiser, 20-year-old smokeballer, demonstrated yesterday that a good right-hander could quiet the Spudder bats with men on base, the Steer skipper was expected to entrust today's assignment to Sargeant George Connally, veteran of many major league campaigns.

Three Wichita moundsmen, including the team's two aces, Messenger and Payne, had a hand in losing the opener, 3 to 2, to Galloway's hill choice was problematical. As Payne pitched to only three batters, however, he was a likely choice to attempt to stop the Steers and square the series. Hal Wiltse, veteran southpaw, was the second guess to tell for the Spudders.

George Bischoff, Dallas backstop, who whammed in the winning run with a single in the ninth and Larry Bettencourt, Spudders' substitute first sacker, who collected three of the homing's eight hits off Fraiser, including a homer, and scored both of his team's runs, emerged individual heroes. They supplied the thrills for 8,000 customers that jammed Athletic Park.

Levi Lynch Wins in Quanah Golf Invitation Meet

Quanah, Texas, Sept. 19.—Quanah's first invitation golf tournament is over. The first champion has been crowned and his name is Levi Lynch. The sun-bronzed carpenter from Paducah blasted his way through the toughest opposition to victory and has won the right to have his name engraved on the Quanah invitation trophy which becomes the permanent property of any person winning it three times.

Lynch in winning medalist honors in the qualifying round with a 75 on the difficult 6,344-yard course gave notice that he was to be reckoned with. In his first round of match play C. Blanton of Childress carried him to the 19th hole. In his second round with J. D. Michie of Childress he had easier sailing, defeating Michie 7 and 6. He won his third round with Hermon Caskey, one of Quanah's young golfers by the same score and reached the finals to find an opponent worthy of his golfing skill in Eugene B. Smith of Quanah. Smith had won his right to the finals by defeating E. B. Caskey of Quanah in the second round, having won the first by default, and then taking the measure of L. S. Walker of Quanah, twice winner of the Green Belt Golf Association championship by 4 and 3. The final 18 holes played in the afternoon between Lynch and Smith was as thrilling an exhibition of golf as can be found.

Ehmke Wants To Win Game From Cubs in Series

Philadelphia, Sept. 19.—(A)—Howard Ehmke, the Athletics veteran right-hander with the temperamental arm, is hoping to get one shot at the so-called devastating Chicago Cubs in the world series.

He may retire from baseball after the series is over, figuring there is no use trying to cure an injured shoulder that refuses to yield to treatment. According to Ehmke himself, however, the news that he is about through with baseball is premature.

"Of course I want to beat the Cubs in a series game," he told the Associated Press today, "but as to my announcing my retirement at the close of the series, why that is something else. I have made no definite decision about retiring. When I do I shall let you know."

Ehmke said he didn't know just what happened to his shoulder that it seemed to have gone bad for no reason at all. Sometimes it is all right, but those occasions are far between.

"I haven't been able to pitch a real fast one since 1926 without pains shooting through my shoulder," he said. "I've been like Ponce de Leon seeking the fountain of youth. I've seen honest-to-God fountains in Youngstown and while he helped me, he couldn't cure me. I've gone further—to California, Hot Springs, Texas and Detroit. No one has effected a permanent cure."

"Maybe I shall retire. Who knows?"

NATIONAL FLAG FALLS TO CUBS

CHICAGOANS FAIL TO WIN BUT FALL HEIR TO LEAGUE TITLE

By WILLIAM J. CHIPMAN.

Associated Press Sports Writer.
By defeating the Robins at Wrigley Field last Sunday, the Cubs reached a point where one more victory would give them the National League pennant. The energetic Bruins are still snooping here and there in search of the victory. But nevertheless they have become champions. The coronet was clamped upon the brow of Joseph V. McCarthy just before game-time in Chicago yesterday when the Braves tossed the Pirates 5 to 4 in the first half of a doubleheader.

The new champions of the elder major circuit were allowed to enter their game against the Giants with-

out the knowledge that the Braves had ended the struggle for them. Otherwise they might have done better against the Giants, who opened the series with a 7 to 3 triumph behind Hubbell's fine pitching.

The most interesting development at Wrigley Field was Roger Hornsby's feat in scoring all three of the Bruin runs, lifting his total to 146, two beyond the National League record set by Kiki Cuyler in Pittsburgh in 1925.

The Pirates came back behind Henry Meine to take the nightcap 6 to 2.

Jim Frey, Nashville recruit, gave the Phillies 13 hits in his Cincinnati debut, but won 9 to 5. Horace Ford, Cincinnati shortstop, made eleven put-outs and three assists.

Led by Ruth and Gehrig, who got two homers apiece, the Yanks bombarded the Indians out of two games 9 to 7 and 12 to 2. Tony Lazzeri added a circuit blow for good measure, and the Sowell brothers performed for Cleveland.

Ruth ran his total to forty-six, by far the highest in either circuit, and Gehrig mounted to thirty-four, second best in the American League.

The Browns batted Bob Grove from

the box to win the opener from the Athletics 6 to 2, but George Earnshaw pitched a steady game in the nightcap to triumph 4 to 3, his twenty-second victory.

Washington dislodged Detroit from fifth place by a margin of one and one half games through a double victory over the Bengals 2 to 0 and 1 to 0.

Chicago and Boston, in the American League, and Brooklyn and St. Louis, in the National, had no games scheduled.

DIXIE SERIES OPENS IN BIRMINGHAM ON SEPT. 25

Wichita Falls, Sept. 19.—(P)—Announcement that the Dixie series between Birmingham of the Southern Association and either Dallas or Wichita Falls of the Texas League would get under way Sept. 25 at Birmingham has been made by William R. Ruggles, acting president of the Texas circuit.

The second game will be played in Birmingham, Sept. 26. Beginning Sept. 28, the contenders will meet at the home city of the Texas champion for a three day stand. The sixth contest will be in Birmingham on Oct. 2, and the seventh in the city winning a toss, if the series goes the limit, on Oct. 3 if in Birmingham, and Oct. 4 if in the Texas city.

Fort Worth, Sept. 19.—(P)—Young Gus Moreland of Dallas was the favorite over men who swung irons when he was in swaddling clothes as play in the Cedar Crest golf tournament was resumed today. Moreland went around yesterday in 67, six under par, to beat out another youth, Charles Ramsel of Fort Worth, by only one stroke.

PROSPECTS FOR WINNING TEAM AT CHILLICOTHE THIS YEAR, BRIGHT BUT MATERIAL SCARCE

Chillicothe, Sept. 19.—Prospects for a winning football team here this year are exceedingly bright. Coach C. V. Hill is handicapped by the lack of reserve material, but if he can manage to keep his regulars in condition he should deal the class B teams of the Interscholastic League district serious worry before the end of the season.

He has developed a line that, although light, apparently has acquired the knowledge of how to make every ounce of weight effective, and has demonstrated its ability twice already against the much heavier forward walls of two teams, Gould, Okla., and Vernon. The Eagles tied Gould, 6-6 and defeated Vernon 6-0. In the backfield, Coach Hill has three small, elusive backs that are

above the average as ball carriers, and usually get a few more feet than the opposition expects. In addition, he has a line-ramming full-back of considerable ability and promise.

The chief cause for worry is the fact that only thirteen men have reported for practice, and two of them do not come out regularly. Even one injury would seriously cripple the team, and more than two would be ruinous.

The Eagles line up as follows: Price, left end; "Rat" Ramsey, left tackle; Bagley, left guard; Ayres, center; Calvert, right guard; Tabor, right tackle; "Red" Ramsey, right end; Hughes, quarter; E. C. Creighton, left half; Guy Creighton, right half; Grammer full.

FREDERICK GIVES OUT REPORT OF SEVERAL INJURIES ON EVE OF CLASH WITH VERNON LIONS

Coach Paul Allen's Frederick High School Bearcats are weakened for their season's opener with the Vernon Lions Friday with four of their probable starting line-up handicapped with injuries. The game will start at the Vernon city park at 4 p. m.

Stanford Clarke, quarter, is suffering from a hip injury according to reports from the Bearcat camp. Winford Davidson, half back and quarter, has a bad charley horse; and Walter Emmick, captain and center, has a back injury. John Wilson with a wrenched knee completes the Bearcat's hospital list.

Coach Allen plans to bring every man who has come out for the squad to Vernon for the clash with the Lions and the entire team has been dressed up in new uniforms for the invasion of Texas, with red jerseys.

Coaches W. C. Weir and Ralph Binton gave the Lions a long practice session Wednesday afternoon drilling team in the routine of exercise, formations and fundamentals. The practice session ended with a light scrimmage session between the regulars and the Maroons.

The game Friday will be the first of the season for both elevens. The entire Vernon squad is expected to see service during the encounter. The Lions are handicapped by only one injury, Beck Lawrence, who injured a knee in the practice scrimmage with the Chillicothe Eagles on Tuesday, and it may not keep him out of the game Friday.

The probable starting line up, with comparative weights:

Bowden 141		Wilkes 140
Paschal 210	Left End	Neely 180
Thomas 155	Left Tackle	Schrinscher 140

ABILENE HOUSEWIFE ENDORSES ORGATONE

"I Haven't Been Well for Three Years and Couldn't Eat. Even Milk Caused Indigestion," Said Mrs. Campbell.

"For over three years I have suffered with a severe case of chronic stomach trouble and indigestion and never felt like doing anything," said Mrs. Lizzie Campbell, residing at 626 Willow, Abilene, Texas, while talking with the Orgatone man.

"A friend recommended Orgatone to me and I have taken three bottles and feel like a different person.

"I suffered a great deal from indigestion every time I ate anything, food would sour on my stomach and gas would build me up until I would be miserable for hours afterward. I didn't have any appetite because I just couldn't eat what I did want. Everything I ate would cause me a lot of pain, because it would not digest but sour and come right up. Even sweet milk had a bad effect on my stomach. I was very nervous and couldn't rest or sleep at all. I never had any energy or pep at all and never felt like doing anything. But since taking Orgatone, I eat anything and everything I want. I eat things that I never could eat before, and I do not have any pains or bad effects afterwards at all. I am not nervous and sleep and rest fine every night. I feel better than I have in a long, long time. I can do my housework now, without feeling all tired or worn out. Orgatone has certainly been a benefit to me, for I am not bothered any more in any way, as I was and I know that every one suffering as I did, it will help them."

Genuine Orgatone is manufactured by one of the world's largest laboratories and is not a so-called secret or patent remedy but a new scientific bile treatment and is sold in Vernon, by the Vernon Drug Store. Adv.

Connie Mack's Daughter To Become a Nun.

Connie Mack and his pennant-bound Philadelphia Athletics have lost one of their most faithful rooters—Connie Mack's daughter, Mary Cornelia, 18, who daily sat in a seat back of the A's dugout and rooted for the Athletics, has entered the convent of the Sisters of St. Joseph at Philadelphia, where she was educated, as a novice to become a nun. While attending the convent school, she was prominent in athletics.

Cubs Must Play 11 More Games on Regular Card

Chicago, Sept. 12—(AP)—The 1929 champions of the National League, Chicago's Cubs, today faced the business of going through motions of 11 ball games before engaging the Athletics in the battle for world title acclaim.

Although no championship has come to Chicago since 1919, and none to the Cubs since 1915, almost no excitement accompanied actual triumph of the team assembled by William Wrigley, Jr., and maneuvered to the title by Joseph V. McCarthy. Virtually "in" for two weeks, the Cubs had only to wait for the law of averages to go to work for them, and finally missed the thrill of making the deciding gesture themselves when Boston administered the coup de grace to Pirate hopes in the first game of yesterday's doubleheader.

Only a half-hearted cheer greeted the news when the Boston victory over Pittsburgh was posted at Wrigley field where about 7,500 fans sat shivering as the New York Giants defeated the champions, 7 to 3.

McCarthy, Wrigley and President William L. Veeck were smilingly happy. For McCarthy it was his first championship as a major league manager, earned after four years of effort. For Wrigley the title was his first as the owner of a major league club.

WE TALK TOO MUCH

We all get more or less pleasure out of referring derisively to the gossip of women, but as a matter of fact men are endowed with the same tendency. Yesterday's news dispatches illustrated this fact. From two widely separated points came accounts of two men of good standing in their communities admitting, in effect, that they were gossipers.

The two men in question were not of the neighborhood, back-fence rumor spreaders. It would have been far better if they had confined their remarks to the back yard, but their positions gave them a much wider field of influence, and the damage done by their remarks was therefore many times greater than it might otherwise have been.

One was an editor of a big paper. The other was a minister. The editor told of being served liquor in a number of homes in Kansas, and then when an official investigation was started he admitted that his statement had been incorrect. The preacher announced over the radio that the jury in a prominent case in California was hung from the start and left the impression that he had inside information on the matter, but when an investigation was launched he admitted, in effect, that he did not know what he was talking about. He had heard that the jury was hung and he announced this over the radio without attempting to verify the report, or without qualifying the assertion.

We frequently see men of high positions in the role of gossip. The minister in his pulpit takes advantage of his position and makes assertions that it would be impossible for him to substantiate. The columnist passes along a bit of rumor that, even if it is qualified, probably will be repeated without reservations and do considerable harm.

Because one man is a minister of

note, and another is a lawyer of great repute, and another a newspaper columnist with a great following does not give any one of them a license to gossip. They should be all the more careful, for, as a rule, their declarations are likely to be given greater credence than those of some one not so noted. It is far too easy to talk things of which we know nothing.

A STEP FORWARD

Although Vernon apparently was not remotely interested, the organization of an association for the promotion of a plan to supply a number of northwest Texas cities with water from Plains sources, effected at Quanah Tuesday, was a progressive step. It may be labeled as such even though the great water project never actually materializes. It at least shows that those entrusted with positions of responsibility in a number of cities are alive to the needs of their cities and are anxious to solve them, and willing to give serious consideration to a proposition that offers possibilities.

Men of success often have given expression to the thought that the way to failure is through contentment. One state it, "While contentment may not be the seal of failure, it at least closes the door to success." Complacency bars the way to progress, whether in men or cities. When one becomes so satisfied with what he has that he is not disposed to investigate to see if there is not something better, there is little likelihood that he will improve.

The cities whose officials showed a disposition to strive to supply their communities with an unlimited source of water may someday be prepared to welcome some of the greatest industrial plants in the state. There can be no doubt that if the cities of this section of Texas are to grow and become real cities, as they are expected to do in the future, they must have a foundation. Certainly a city cannot be built without a water supply, or even with a small town supply. Water is one of the basic essentials of any community, and the lack of it certainly forms an insuperable obstacle to growth beyond its limits.

Of course it is possible that the Plains water supply project will not prove feasible. However, there is no reason to show that this has been proven already. The logical thing seems to make a thorough study of it, unless some more promising project is to be presented.

For a number of years city administrations of Vernon have been solving the water supply problem. At one time a celebration was staged marking the permanent solution of a problem which had given the administration considerable difficulty. The solution was not so permanent and succeeding administrations have been troubled by the same old problem. It should be becoming apparent that mere wells are not likely to solve the water problem of a real city. Otherwise all of our great cities are making big mistakes.

Hoover Working Out Plans for Naval Reduction

Washington, Sept. 19.—(P)—Amid the memories which crowd the President's study in the historic east room of the White House, Herbert Hoover daily is working out his hopes for naval reduction and furtherance of world peace.

For the first time, he has let it be known that this room—used as a study by his predecessors from Adams to Roosevelt and then abandoned for five administrations—has been restored to that use.

Addressing a radio audience through a microphone in that chamber, where he proclaimed the Kellogg-Briand peace policy to the world and where he is working out the naval angle of the same policy, as he views it, he expressed his belief that current naval discussions were in keeping with the "high aspirations and high accomplishments" that have made it memorable.

"The problems of our day," he said, "today crowd for entry here. One problem has been constant with each succeeding president—that we should maintain and strengthen the will of the nation and other nations for peace."

LISTEN FELLOWS,

I told you last fall your plumbing was going to freeze up, better prepare for it. It did, and you got in a hurry to get it fixed, but some of you sure have not been in a hurry to pay me. So you fellows that know you owe me, kick in. I need the money. I am in good health and do not intend to take a vacation but I want the money so I can pay my honest debts.

are means to this end.

Giving voice to his own optimism, he said:

"Some months ago I proposed to the world that we should further reduce and limit naval arms. Today we are engaged in a most hopeful discussion with other governments leading to this end.
"These are proposals which would preserve our national defenses and yet would relieve the backs of those who toil from gigantic expenditures and the world from the hate and fear which flows from the rivalry in building war ships."

BETTER POULTRY PRICES BEING SOUGHT AT ELECTRA

Electra, Texas, Sept. 19.—The Electra Agricultural bureau is working in conjunction with the county agent in an effort to command a better price for chickens and turkeys, offered to the markets from this territory, during the sale period around the holidays. Questionnaires are being mailed to farmers to determine if the output of fowls will justify shipping in carload lots and if possible to form a cooperative market committee.

VERNON SCHOOL ENROLLMENT NEAR 2,000 PUPILS

Soaring above the initial enrollment last year, the total enrollment in the Vernon public schools Wednesday reached 1,900, according to a report made today by Superintendent T. Lefland. The senior high school, with an increase of thirty-nine, shows the greatest gain over last year's initial enrollment.

Announcement of the superintendent said that pupils are still enrolling and the total probably will pass 2,000 by the end of this week. Enrollment by schools follows: Senior high, 537; junior high, 318; Parker, 192; Central, 325; Hawkins, 214; Shive, 267; and Booker T. Washington, (negro) 117.

QUANAH GINNING TOTAL REPORTED AT 666 BALES

Quanah, Texas, Sept. 19.—A total of 666 bales of cotton have been ginned by the five gins of Quanah up to and including Sept. 16. The grade is middling and strict middling, with price range thus far the season from 16.75 to 19 cents. Seed remains firm at \$30 per ton to the farmer, with the oil mill paying \$33 to the ginners in carlots.

Prediction is being made among these in position to know conditions over the county that more cotton will be produced this year than last, although during the early part of the season because of lack of moisture at the proper time it was not believed the crop would be nearly as heavy as last year. Late rains have materially helped the situation, and should no pests or unforeseen calamity strike the fields the results will be surprising in yields, according to cotton men.

Forty-Five Enter County Line High School First Day

An enrollment of 45 students the first day of the Wilbarger-Foard County Line Rural High School District No. 10, was reported this morning by County Superintendent Ercell W. Brooks. School opened at the high school and at four ward schools yesterday. Ira V. Younger is principal of the school.

Following a meeting of the trustees of the district this week it was announced that the Guggisberg ward school would be moved to the Parsley Hill school which is being used as a high school, in connection with the consolidation of the district. The county trustees consolidated the Guggisberg ward school after a petition was received from the Guggisberg district. Guggisberg and Kincheloe districts failed to pass the consolidation project at a vote held during the summer.

The trustees also announced that George B. Ansell, II, had been named trustee of the Lone Star district. Students of the Lone Star district are taken to the Electra and Beaver Creek schools. Students of the Wharton district are being taken to the Rock Crossing and Oklaunion schools. Students of the Guggisberg School are being taken to the Harey school for ward school studies and the Parsley Hill ward school students are being taken to Antelope.

SHARP CONFLICT FLARES UP IN LEAGUE ARMS TALK

Geneva, Sept. 19.—(P)—Sharp conflict of opinion flared up in the League of Nations disarmament committee today when the British delegation moved to reopen the question of considering trained army reserves in seeking a basis for general disarmament.

Lord Cecil presented the British proposals, and was supported by the German delegation, but encountered quick opposition from delegations of France, Italy and Japan.

Lord Cecil described the question of disarmament as the cornerstone of the edifice of world peace and insisted that limitation of land forces, both personnel and material, especially material, was the most important part of the disarmament problem.

lems. Rene Massigli, French delegate, defended the position that the question of trained land reserves had been definitely set aside at the last spring meeting of the preparatory commission and pleaded that it was unwise to discuss the subject of military forces while the Anglo-American naval discussions were proceeding.

Republicans Are Called Together on Tariff Bill

Washington, Sept. 19.—(AP)—Senate Republicans were called to get together today for a party pow-wow on the tariff as a showdown approaches on the controversial bill.

Senator Watson of Indiana, Republican leader, called the party together with a view to sounding out his strength in the approaching contests and with an eye to lining up his forces for the more immediate issue—on the flexible provisions of the tariff act.

Two splittings in the Republican ranks this week on the tariff are giving some concern to majority leaders. The Republican independent group, headed by Senators Borah of Idaho and Norris of Nebraska, has been counted out of the party fold for some time so far as any votes on the tariff bill are concerned. Now the new split involving senators from the far northwestern states is giving worry.

To hold a majority against a combination of Democrats and Republi-

can independents, the Republican regulars cannot afford to lose the support of the far northwestern group, including Senators Jones of Washington, McNary and Steiwer of Oregon, and Johnson of California. This group is contending for higher tariff rates on some commodities, particularly on lumber and shingles, whereas the Republican independent faction is against any tariff increases except on agricultural products.

President Hoover is understood to be anxious that the flexible provisions on the tariff act be retained. This allows the president to raise or lower duties by 50 per cent upon a report by the tariff commission. It has aroused strong opposition on constitutional and other grounds.

Strategy in the tariff debate also was a subject before the Republican conference today. There is some difference of opinion in the ranks over the program to let the bill speak for itself and to leave the debating to the opposition. Some of the majority are insisting that every attack be answered.

Main concern of the leaders, apparently, is to get speedy action. They want the bill out of the way before the regular session opens in December. They want it out of the realm of discussion before the biennial primaries open next spring.

ANXIETY OVER NAVAL ACCORD IS EXPANDING

Other Nations Profess To Fear
British-American Treaty Will
Strengthen England's Hold
on European Affairs at Ex-
pense of Others.

Paris, Sept. 19.—(AP)—French apprehension regarding the character of the prospective Anglo-American naval accord is increasing to such an extent as to constitute a real threat to the complete success not only of the preliminary agreement between the United States and Great Britain but of the larger issue of a general move for reduction of armament.

French fears voiced on public platforms, in the press and by authoritative circles are echoed from other parts of the continent, chiefly Geneva. From Germany has come full-hearted approval of the trend of affairs regarding armaments, but French spokesmen intimate lesser continental powers share concern regarding developments which it is feared might be beneficial to former enemy nations of the World War, or which would, by means of a far-reaching Anglo-American political entente, strengthen British political power in Europe and other parts of the world at the expense of legitimate French development as a great world power.

French observers are watching Geneva as closely as London and Washington for moves likely to work out unfavorably for France. One is seen in Viscount Cecil's proposal before the League of Nations that the question of trained army reserves, always a delicate point on the continent, must be ultimately considered in the general disarmament scheme.

In forceful language the newspaper Temps, renowned for studied and authoritative comment, asks exactly what America and Britain are driving at in the proposed naval accord. Alarm is expressed by the newspaper L'Intransigeant, which characterizes Lord Robert Cecil's move at Geneva to reopen the question of limitation of trained army reserves as a bold effort to weaken French national defense.

The French view is supported by the Journal De Geneve which goes so far as to express doubt whether a five power conference will take place, saying it is not at all sure France and Italy, which refused to participate in the 1927 Geneva conference, will agree to be represented. The Geneva paper says that in France, and no doubt in Italy, and Japan, it is believed Great Britain and America in expressing the desire to eliminate submarines from naval armaments are trying to reach an agreement at the expense of their partners.

Butler To Take Marines Back to Rum-Swept Town

Quantico, Virginia, Sept. 19.—(AP)—Assured that he will have his way about prohibition enforcement in this little Marine post town, Major General Smedley D. Butler is making plans to get on his band and lead back the 2,000 leathernecks he took away last Saturday to the construction of local business men.

Appointed commandant of this famous training base three months ago, the veteran "Devil Dog," who says lack of public cooperation hindered his clean-up of Philadelphia as its borrowed police commissioner, warned Quantico it must choose between the "lawless element" and the mar-

ines. Three arrests made by Federal agents didn't satisfy the general. He marched out, and with him went the men who make up 90 per cent of the customers of the town.

After a hectic week of council meetings, "calls" on residents careless of conduct, and hasty trips to neighboring municipalities in his new blue roadster to borrow warrants, A. E. McInteer, who is both mayor and railway station master, informed the general the last "big bootlegger" had left town.

"What about the little ones?" demanded the general.

"We think they're all gone," the mayor replied.

"Whenever you're sure—I'll have a parade. You and I will lead it right into town. And I hope the boys buy a lot of extras to make up for our absence."

With the mayor at his side, General Butler called out his entire command to explain the situation. "You birds," he said, planting one foot atop the nearest barrack porch railing, "took an oath some time ago to defend the constitution. Don't let

this news stun you, but the prohibition law is part of it."

His cap slid over to the hard-boiled angle. He gave it a push, and then the elbow of his right arm came to rest on his knee.

"I understand," he went on, "that there is some difference of opinion among civilians concerning the right and wrong of prohibition. Some of it got into camp, but those on the negative side are in the brig. It's a closed question for the military, and as long as you wear those uniforms, don't get opinionated."

Quantico got too rough for the general when he found one of his highest ranking non-commissioned officers, tending bar for the town's biggest bootlegger. There are stories of liquor found in the quarters of two commissioned officers and "too much whoopee" has been ascribed as the indirect cause of five accidental deaths among the enlisted men in the last month.

Stomach Disorders First Revealed by Coated Tongue

Your tongue is nothing more than the upper end of your stomach and intestines. It is the first thing your doctor looks at. It tells at a glance the condition of your digestive system—and physicians say that 90% of all sickness starts with stomach and bowel trouble.

A coated tongue is a danger signal of those digestive disorders which lead to so many kinds of serious illness. It tells why the least exertion tires you out; why you have pains in the bowels, gas, sour stomach, dizzy spells.

Coating on the tongue is a sign that you need Tanlac—the medicine which has helped thousands who were physical wrecks from stomach and bowel troubles—who had "tried everything" in vain and about given up hope.

Tanlac contains no mineral drugs; it is made of barks, herbs and roots. Get a bottle from your druggist today. Your money back if it doesn't help you.
